

# Greenpatch Organic Seeds & Plants

2018/19

## **Plant flowers to feed the bees..**

Every garden has an army of workers pollinating flowers everyday. Bees will come to your garden if they know there are flowers to forage on. Here are some plants to consider..

Great Carpenter Bee on Lupin

Cosmos - A Bee Favourite

African Blue Basil

Head down bottoms up in poppy flowers

## **Greenpatch Member Offer**

By becoming a supporting member you receive exclusive discounts off all our seeds and plants helping you save throughout the year. A choice of 2 Memberships are available:

### **For a \$29 yearly subscription you receive:**

- \* 6 seed packets of your choice with a Greenpatch Catalogue
- \* 10% discount off all Bulk Seed, Seed Packets & Nursery Plants for the period chosen.
- \* Spring, Summer, Autumn & Winter Newsletter via email.

### **For a \$54 two year subscription you receive:**

- \* 12 seed packets of your choice with a Greenpatch Catalogue
- \* 10% discount off all Bulk Seed, Seed Packets & Nursery Plants for the period chosen.
- \* Spring, Summer, Autumn & Winter Newsletter via email.

### **Bonus Offer:**

- \* 1 free seed packet of Silverbeet - Silver Ribs. Easy to grow all year round for a continual harvest of cut greens. Offer valid until 1/8/2019.

To join, simply add your Membership cost to your order form and choose your seed packets.

**Contact Us for online ordering discount code**

# Introduction

Welcome to the 2018/19 Greenpatch Catalogue!

We hope that you will find some interesting gems with an array of 43 new additional varieties of seeds & plants.

We are thrilled to offer a good selection of 18 corn and maize varieties! A Big Thanks goes to the various keen growers that have been collaborating with us and supporting the 'Corn/Maize Project' which started in 2014.

We would like to encourage everyone to 'Grow Your Own Food' even if it's just a few varieties. It all helps towards future sustainability and to keep saving the seeds from your garden. This can be done by allowing a small portion of your crop to go to seed.

## 'from Artichoke to Zucchini'

At Greenpatch Organic Seeds we are all about producing seeds. The harvesting and cleaning of seeds continues for 8 months of the year, over 230 varieties are curated at Greenpatch from Artichoke to Zucchini.

Our nursery comprises of specialised plant groups including herbs, edibles, fruiting, cottage garden, succulents and aquatic plants. We are proud to be one of only a few certified organic nurseries in Australia!

The gardens & orchard provide propagation material for organic nursery production of over 500 varieties throughout the year.

Due to the limited space in the catalogue, new varieties of succulents, geraniums & books are accessible via our website only. Please visit - [www.greenpatchseeds.com.au](http://www.greenpatchseeds.com.au)

Due to changes with our previous certifier, we recently transferred the organic certification for the farm and plant nursery to Aus-Qual. We are 'In-Conversion' and aiming for full certification status after November 2018.

Products can be ordered via:

**Free** Greenpatch Organic Seeds  
**Mail-Order** PO Box 1285,  
**Catalogue:** TAREE, NSW 2430

## “Visit Us”

If you are travelling through or near Taree – please stop in and have a stretch! We are only 900m from the Pacific Highway. Enjoy a walk through the extensive gardens and see how the seed growing areas are doing. The nursery and shop is also open Monday–Friday, 9am-4.30pm.

## “100% Non-Hybrid, Non GMO Heirloom Varieties”

Heirloom and Heritage seeds are unique varieties having great flavour, long harvesting periods. We are committed to maintaining genetic diversity and offering quality seed.

At Greenpatch our aim is to collect, grow and re-distribute rare and unusual seeds and plants that are not commonly available.

We are thankful to our seed growers for their dedication & contributions. It is becoming ever so important for seeds to be produced in Australia with increasing quarantine restrictions to seed imports. Ultimately by supporting seeds that are grown locally will ensure diversity & security of heritage & heirloom varieties. Seed producers are welcome to make enquiries.

We thank all our awesome members and customers for your continued support over the years and helping us to continue what we love doing. May you have a fantastic growing season!

Best wishes

Neville, Sophia & Staff

**The Seed Saver Handbook** - M & J Fanton (176p) **\$33.00**  
Produced by the founders of Australia's Seed Saver's Network covers all areas of seed production from start to finish for home gardeners. Propagation, selection, roguing, isolation distances, harvesting, processing, storing. Also cultivation, usage of vegetables, herbs, flowers. Over 100 varieties listed.

**The Pumpkin Book** - J. French (116 pp) PB **\$19.95**  
Includes the growing and eating of this popular vegetable.

**The Weed Foragers Handbook** **\$32.00**  
- Adam Grubb & Annie Raser-Rowland (166 pp) HB  
Includes the top 20 edible & medicinal weeds plus other useful & edible weeds, what plants to avoid. Photos for identification and recipes for weeds found in the garden.

**The Wilderness Garden** - Jackie French (192pp) PB **\$25.95**  
Jackie has learnt to grow and develop a garden with great diversity that suits Australian conditions. Letting plants and nature do most of the work and produce plenty of food.

**Tomatoes for Everyone** - A. Gilbert (142 pp) PB **\$32.95**  
Covers a wide range of aspects to tomato growing. Excellent information from starting from seed, how to care for your seedlings and protect them from pests, diseases, fungal problems & variables of weather. Also included are colour photos, recipes, table of cultivars/variety selection.

## Greenpatch Seed Range

### Untreated, Non-Hybrid, Open Pollinated Vegetables

ALL SEED PACKETS \$3.20 each. Members \$2.88 each.

**AMARANTH** (*Amaranthus mangostanus*)  
- Edible Green Leaf **5gm - \$8; 25gm - \$20**  
Growing to 80cm, produces large tender leaves. Use as for spinach and stir fries. Harvest at 30days. Sow Spring-Summer.

**ARTICHOKE - Purple Headed** (*Cynara scolymus*)  
Grows to 1.5 metres, a prized delicacy, used steamed, in casseroles & preserves. Rounded heads purple-green colour, producing large hearts for eating. Grow in rich well drained moist soil. Sow Autumn-Spring **5gm - \$9**

**ASPARAGUS - Mary Washington** (*Asparagus officinalis*)  
Perennial to 2 metres, old variety, robust spears, used commercially. Start harvesting after 2 years. Sow Spring - Autumn. **25gm - \$22; 50gm - \$42**

**ASPARAGUS - Argenteuil** (*Asparagus officinalis*)  
Attractive French heirloom perennial, 2cm thick white green spears with purple tinted tip. Sow Spring-Autumn.

**BEAN - BUSH** (*Phaseolus vulgaris*)  
High yielding and rich in protein. Plant every 3 weeks for continuous supply. Sow Spring-Summer.

- Cherokee Wax **500gm - \$12; 1kg - \$20**  
Compact variety producing yellow stringless pods. Adds attractive colour to salads. Eat fresh or cooked.

- Redland Pioneer **500gm - \$12; 1kg - \$20**  
Long flat stringless pods of good quality, old variety.

- Royal Burgandy **500gm - \$12; 1kg - \$20**  
Compact, producing purple pods that are stringless when young. Adds colour to salads.

- Provider **500gm - \$12; 1kg - \$20**  
Compact variety, pods up to 15cm. Round, green stringless.

- Windsor Long Pod **500gm - \$12; 1kg - \$20**  
Popular, pods flat 20cm long. Stringless when picked early. Seeds red.

**BEAN - CLIMBING** (*Phaseolus vulgaris*)  
Take up little room and yield over a long period, provide trellis. Sow Spring-Summer.

- Blue Lake **500gm - \$13; 1kg - \$24**  
Popular old variety, climber to 2 metres, heavy bearer of fleshy, round, green, stringless pods to 15cm long.

- Purple King **500gm - \$14; 1kg - \$24**  
Flat purple pod to 18cm popular variety. Pods turn green when cooked. Adds colour and flavour to salads.

- Scarlet Runner **500gm - \$14; 1kg - \$26**  
(*Phaseolus coccineus*) Also known as '7 year bean'. Perennial climber to 2 metres, ornamental with scarlet flowers. Green pods are eaten when young. Mature seeds used as a soup bean.

**BEETROOT** (*Beta vulgaris*)  
Popular root vegetable. Fast growing, bi-annual, easy to grow. Sow direct in garden. 60 days to maturity. Keep moist in fertile well drained soil, sunny position. Use in salads, soups, cooked or preserved. Sow all year except in very hot weather.

- Burpee's Golden **25gm - \$8; 50gm - \$15; 100gm - \$28**  
Sweet golden flesh, milder flavour, green tops used like spinach. Used in salads, cooked & steamed.

- Chioggia **25gm - \$8; 50gm - \$16; 100gm - \$30**  
Also known as Candy Stripe. Attractive red skinned beetroot with red & white rings. Sweet tasting flavour.

- Cylindra **25gm - \$6; 50gm - \$10; 100gm - \$18**  
Cylindrical variety, smooth dark red roots up to 20cm long. Tender with sweet flavour.

- Detroit **25gm - \$6; 50gm - \$9; 100gm - \$16**  
Round red roots up to 12cm across. Smooth tender, sweet

## BROAD BEAN

(*Vicia faba*)

Eaten fresh or cooked. Sow Autumn - Spring.

- **Coles Dwarf Prolific** 500gm - \$8; 1kg - \$15; 5kg - \$60  
Compact grower to 1 metre, good cropper with 20cm pods.
- **Long Pod** 500gm - \$8; 1kg - \$15; 5kg - \$60  
Hardy vegetable, annual to 1.5 metres high, producing large sized pods.

## BROCCOLI

(*Brassica oleracea*)

Rich in calcium, vitamins and minerals. Sow all year, except hot weather.

- **Calabrese** 25gm - \$8; 50gm - \$15; 100gm - \$28  
Good producer of medium sized heads & continues to produce side shoots.
- **Romanesco** 25gm - \$12; 50gm - \$22 100gm - \$41  
Produces pale green heads in a whirled pattern. 20-30cm across, good flavour. 100 days to maturity. Prefers cooler conditions.

## BRUSSEL SPROUTS - Long Island

(*Brassica oleracea*)

Popular traditional variety. Excellent sweet green sprouts. 3-4 months to maturity. Sow Autumn-Winter.

25gm - \$12; 50gm - \$22; 100gm - \$40

## BURDOCK

(*Arctium lappa*)

Hardy root vegetable to 1 metre high with large leaves. Young roots eaten raw, older ones steamed or cooked in soups. Likes deep moist, well drained soil. Sow Autumn-Spring.

5gm - \$8; 25gm - \$24

## CABBAGE

(*Brassica oleracea*)

Popular vegetable, high in calcium & iron. Like fertile, well drained soil, sunny position. Frost hardy. Sow in containers & transplant to garden. Sow all year, except in hot conditions.

- **Chinese Michihil** (*Brassica pekinensis*)

Traditional heading variety, tall upright cylindrical. 25cm tall x 10cm diameter. Dark green leaves and well blanched interior. Tender & sweet, use in salads and fried dishes. Sow in Autumn-Spring.

25gm - \$8; 50gm - \$16

- ▶ **Conehead** 25gm - \$8; 50gm - \$16; 100gm - \$32

An old heirloom variety, rare. Small conical shaped head similar to Cabbage Sugarloaf. Sweet flavour, excellent texture. Heads up to 1-1.2kg. Excellent in salads. 90 days to maturity. Popular vegetable, high in calcium & iron. Likes sunny position. Frost hardy. Sow all year except in hot conditions, ideal in containers or direct to garden.

- **Golden Acre** 25gm - \$8; 50gm - \$16; 100gm - \$30  
Early producing variety forming small, round, light green heads to 1.5kg. 80 days to maturity.

- **Red** 25gm - \$8; 50gm - \$16; 100gm - \$30  
Globe shaped, red cabbage to 20cm diameter. Heads up to 2kg. Use raw or cooked.

- **Savoy Verona purple** 25gm-\$8; 50gm-\$16; 100gm-\$32

Large European cabbage, purple colour, enhanced by Winter temperatures, producing a 3-4kg head in 90 days, stores well.

- **Savoy Vertus** 25gm - \$8; 50gm - \$16; 100gm - \$32

Produces 20cm savoy green crinkly leaved cabbage. Mild flavour for salads & coleslaws.

- **Sugar Loaf** 25gm - \$8; 50gm - \$16; 100gm - \$32

Very old variety, small conical shaped heads, sweet flavour. Excellent in salads. 80 days to maturity.

## CAPSICUM

(*Capsicum annuum*)

Popular Summer vegetable, high yielding, shrubby plants for warm sunny position. Yield over a long period. Sow Spring - Summer

- **Bogyiszlo**

Heirloom variety from Hungary. Hardy to 45cm high, fruit yellow, ripening to red. 8cm across tapering to a point, producing an abundant crop.

5gm - \$8; 25gm - \$25

- **Californian Wonder**

Sweet fruit, cube shaped 10 cm, bell type, heavy producer use green or red, high in Vitamin C.

5gm - \$8; 25gm - \$22; 50gm - \$42; 100gm - \$75

- **Golden Californian Wonder**

Fruit matures green, turns yellow to orange. Adds colour to salads and cooked dishes.

5gm - \$12; 25gm - \$42

- **Purple Beauty**

Compact bush to 45cm high, fruit 13cm long and 8cm wide. Green fruit turning deep purple to red when mature.

5gm - \$12; 25gm - \$42

- **Sweet Banana**

Light yellow to red sweet peppers 6cm long x 1.5cm wide. Compact bushes to 60cm high. Early maturity 70 days.

5gm - \$8.00; 25gm - \$25.00; 50gm - \$45.00

## CARROT

(*Daucus carota*)

Popular root vegetable. Sow direct in garden. Thin out at 5cm high. Keep moist in fertile well drained, sunny position. Use fresh in salads, soups, juices or cooked. Sow all year

- **All Seasons** 25gm - \$12; 50gm - \$22; 100gm - \$40

Hardy variety to 20cm long suited to warmer climates or for Summer conditions. Orange skin, orange/red core.

- **Atomic Red** 5gm - \$18; 25gm - \$80

High in lycopene, red roots to 25cm long. Adds much colour to dishes. Holds colour when cooked.

- **Baby** 25gm - \$15; 50gm - \$26; - 100gm - \$50

Ideal variety for shallow soils, harvest as baby carrots. Orange root to 14cm, quick to mature.

- **Cosmic Purple** 5gm - \$12; 25gm - \$40

Smooth purple coloured skin with coreless orange flesh, high in antioxidants. 58 days to maturity.

- **Rainbow Mix** 5gm - \$12

A mix of colours in white, red, orange, purple & gold. Enjoy the variety of coloured carrots.

- **Scarlet Nantes**

25gm - \$7; 50gm - \$12; 100gm - \$20

Bright orange-red root to 18cm, coreless variety. Very sweet flavour. Good for juicing and baby carrots.

**- Solar Yellow**

Early maturing variety - 65 days. Yellow carrot to 18cm long, sweet and crunchy flavour.

**CAULIFLOWER** (*Brassica oleracea*)

Popular Winter vegetable, used in cooked food. Plant in cooler months in fertile, well drained soil, sunny position. Keep moist. Sow Autumn-Spring.

**- Snowball** 25gm - \$10; 50gm - \$20; 100gm - \$35

Crisp, tender white heads to 16cm across. Good quality suited to warmer areas. 90 days to maturity.

**- Purple Sicily** 25gm - \$12; 50gm - \$24; 100gm - \$45

Attractive purple heads to 1kg. 180 days to maturity.

**CELERIAC - White Alabaster** (*Apium graveolens rapaceum*)

Hardy root vegetable related to celery. Grate root to add flavour to salads, soups & many cooked dishes. Use tops as for celery. Sow Autumn-Spring. 5gm - \$7; 25gm - \$25; 50gm - \$45

**CELERY - Tall Utah** (*Apium graveolens var dulce*)

Tall variety to 60cm in height, upright & compact growth, medium dark green stalk. Sow Autumn-Spring.

5gm - \$7; 25gm - \$20; 50gm - \$38

**CHICORY - Palla Rossa** (*Cichorium intybus*)

Also known as Radicchio. Dark green outer leaves, with a 10-15cm red wine coloured head and white ribs. Attractive variety, bitter & spicy taste. Use in Italian dishes, salads, steamed and boiled.

5gm - \$8; 25gm - \$18; 50gm - \$32

**CHICORY - Witloof** (*Cichorium intybus*)

Hardy bi-annual with penetrating white taproot. Green leaves used in salads or cooking. Roots can be blanched and used in food dishes. Also roots dried and roasted for coffee substitute. Sow Autumn-Spring.

5gm - \$7; 25gm - \$22

**CHILLI** (*Capsicum annuum*)

Excellent producer. Fruits used fresh, dried or bottled. Likes good, well drained soil, sunny position. Sow Spring - Summer.

**- Anaheim** 5gm - \$8; 25gm - \$25; 50gm - \$45

Very old variety, upright bushes producing long blocky, red fruit to 15cm. Medium heat.

**- Hungarian Hot Wax** 5gm - \$8; 25gm - \$25; 50gm - \$45

Yellow fruits ripening to red. Up to 20cm long. 80 days to maturity. Heat level 4.

► **Hungarian Sweet Paprika** 5gm - \$8; 25gm - \$25

Annual. Traditional Hungarian variety that is revered for its authentic Paprika flavoured fruit when dried. Bush grows up to 1 metre, open habit. Produces green fruit turning red on maturity, to 5cm. Ideal for drying.

**- Jalapeno Chilli** 5gm \$8; 25gm \$25; 50gm \$45; 100gm \$85

Popular variety, fruit red or green, hot, 8 cm long, thick flesh, original Mexican chillies. Heat level 4.

**- Serrano** (*Capsicum frutescens*)

Mexican variety. Green fruit turning red at maturity, elongated pointed fruit to 5cm. Erect branching to 80cm high. Excellent for salsa. Heat level 5. 5gm = \$12

**CORN SALAD** (*Valerianella locusta*)

Compact annual to 20cm high. For cool conditions & moist soil. Also know as Lambs Lettuce. Used in salads & cooked like spinach. Sow Autumn-Winter. 5gm \$8; 25gm \$18; 50gm \$32

**CUCUMBER - Richmond Green Apple** (*Cucumis sativus*)

Spreading annual vine producing rounded shaped fruit to 10cm, heavy bearing variety. Cream to green skin with sweet tasting oval fruit, very crisp. Likes well drained soil in sunny position. Sow Spring - Summer. 25gm \$25; 50gm \$45; 100gm \$85

**EGGPLANT** (*Solanum melongena*)

Decorative annuals, attractive leaves and flowers. Fruit used in cooking. Sow Spring-Summer.

**- Black Beauty** 5gm - \$8; 25gm - \$31; 50gm - \$58

Large oval black fruit, 80 days to maturity.

**- Long Purple** 5gm - \$7; 25gm - \$20; 50gm - \$38

Popular old variety, producing long, dark fruit to 25cm long & 8cm wide.

**- Tsakoniki** 5gm - \$9; 25gm - \$30

Bushy plant to 70cm high. Fruit purple with white stripes, cylindrical up to 25cm long.

**ENDIVE - Salad King** (*Cichorium endiva*)

Large open growth, attractive serrated curly leaves, winter hardy. Use in salads and blanched. Sow Autumn-Spring.

5gm \$7; 25gm \$20; 50gm \$35

**KALE** (*Brassica oleracea*)

Nutritious leafy green, eaten fresh or steamed. High in vitamins, & minerals, pick leaves as required. Plant in good well drained soil, sunny position, keep moist. Sow Autumn-Spring.

**- Black Toscana**

Also known as Lacinato. Produces long dark green leaves, formed from the middle of the plant. Highly nutritious. Sweet flavour. 25gm \$8; 50gm \$14; 100gm \$24; 250gm \$40

**- Dwarf Blue Curled**

Compact variety with curly, blueish-green leaves. Attractive specimen. 25gm - \$10; 50gm - \$20; 100gm - \$35

**- Red Russian** (*Brassica fimbriata*)

Leaves blue-green with purplish red veins. Sweet flavour, eaten fresh when young or steamed. Highly nutritious. Hardy to grow. 25gm - \$10; 50gm - \$16; 100gm - \$35

**KOHLRABI - Purple Vienna** (*Brassica oleracea Gongylodes*)

Fast growing vegetable, bulb & stem purple. Flesh sweet & white, delicious steamed and leaves eaten when young. Sow Autumn - Spring. 25gm - \$8; 50gm - \$15

**LEEK - Bulgarian Giant** (*Allium ampeloprasum porrum*)

Good sized, early maturing variety, with light green leaves & long cylindrical stem. Likes deep, fertile, moist soil. Great steamed, baked, fried for garnish, boiled, blends well with other vegetables. Adds flavour to soups & quiches. Sow Autumn - Spring. 25gm - \$12; 50gm - \$22; 100gm - \$40

**LETTUCE - Great Lakes** (*Lactuca sativa*)

Popular variety, Iceberg type, crisp green heads & firm hearts. 12 weeks to maturity. Plant in rich well drained soil, sunny moist position. Sow Autumn-Spring.

5gm - \$8; 25gm - \$20; 50gm - \$38

**MITSUBA** (*Chryptotaenia japonica*)

Japanese salad green, high aromatic flavour, parsley like. Leaves used fresh or in soups and stews. Sow Autumn - Spring.

25gm - \$12; 50gm - \$22

**MUSTARD - White/Yellow** (*Brassica juncea alba*)

Grown as an annual, seeds used as a condiment or green manure crop, dig in soil to deter nematodes. Sow Autumn - Spring.

100gm - \$8; 500gm - \$25

**ONION** (*Allium cepa*)

Likes good well drained soil, sunny position, 140-180 days to maturity. Harvest when stems are yellow. Sow Autumn-Winter.

- **Gladalan Brown** 25gm \$12; 50gm \$24; 100gm \$45

Popular old variety, good sized, brown skinned onion, medium short day. Use fresh or cooked.

- **Gladalan White** 5gm \$12; 25gm \$40

Popular and delicious variety, white skinned, short/medium day. Suitable for most growing conditions in Australia. Onion is round and medium-large in size.

- **Long Tropea Red** 25gm \$10; 50gm \$20; 100gm \$38

Excellent salad onion producing medium sized, elongated red onions, medium day length. Early maturing variety

- **Pukekeche Longkeeper** 25gm \$38; 50gm \$74; 100gm \$145

Excellent storing, brown skinned onion, resists bolting, long day length. New Zealand variety.

- **Red Rippa** 5gm - \$9; 25gm - \$32

Medium sized red globe shaped. Excellent flavour, maturity 26 weeks, good keeper.

- **White Lisbon Spring Onion** 5gm \$9; 50gm \$18; 100gm \$35

Bunching variety producing smaller bulbs, ideal for pickling or spring onion. Long, clear white skins & green tops. Mild sweet flavour.

**PEA -Not to TAS-**

(*Pisum sativum*)

Sweet and tasty winter vegetable, eat fresh or dried. Sow Autumn - Spring.

- **Greenfeast** 100gm - \$5; 500gm - \$9; 1kg - \$16

Very popular, early, bush variety, heavy crops of fine flavoured peas when young. Harvest peas when pod has rounded.

- **Massey Gem** 100gm - \$5; 500gm - \$9; 1kg - \$16

Compact bush variety, disease resistant, abundant crop. Eat fresh and suitable for freezing. Delicious flavour.

- **Oregon Sugar Pod** 100gm - \$6; 500gm - \$11; 1kg - \$20

Strong growing bush variety to 80cm. Bears good crop of sweet, flat pods. Eat fresh. Powdery mildew resistant.

- **Snow Pea - Melting Mammoth**

Strong climber to 2 metres, heavy cropper, sweet pods eaten when young and flat - eat fresh or cooked.

100gm - \$6; 500gm - \$11; 1kg - \$20

**Snow Pea - Yakumo**

Climber to 2 metres, large flat sweet pods to 13cm long, purple flowers.

100gm - \$7; 500gm - \$16; 1kg - \$32

- **Sugar Snap**

Sweet edible green pods, bushy type, prolific bearer. Pick when pods have filled out.

100gm - \$7; 500gm - \$15; 1kg - \$25

- **Telephone Pea**

Vigorous climber to 2 metres. Large pods over a long period. Excellent shelling pea. 100gm - \$5; 500gm - \$9; 1kg - \$16

**PEANUT**

(*Arachis hypogaea*)

Easy to grow, plant after frosts. Needs 5 months of warm weather. Plant in rows, Yellow flowers lodge into soil to form peanuts. Low bushy plant to 40cm high, harvest in late Summer-Autumn.

**PUMPKIN**

Annual bushes or vines easily grown in good well drained soil. Used in soups, pies and baking. Sow Spring and Summer.

- **Atlantic Giant** (*Cucurbita maxima*)

Super large show pumpkin, pinkish-orange skin, stock feed. Can grow to 100kg or more.

- **Waltham Butternut** (*Cucurbita mochatata*)

Super large show pumpkin, pinkish-orange skin, stock feed. Can grow to 100kg or more.

**RADISH**

(*Raphanus sativus*)

Fast germinating, root vegetable, eaten fresh in salads or steamed. Maturity in 3-4 weeks. Likes fertile, moist soil in full sun. Sow Autumn - Spring

- **China Rose** 25gm - \$8; 50gm - \$16; 100gm - \$28

Rose coloured skin, white flesh, Chinese Winter radish up to 16 x 7cm in size.

- **French Breakfast** 25gm - \$8; 50gm - \$16; 100gm - \$30

Scarlet roots with white rounded tip to 8cm, mild flavour.

- **Red Arrow Sprouting**

Fast growing. Sprout in shallow soil or jar rinsing method. Sprouts have green leaves, pink to red stems & white roots. Harvest 7-14 days. 25gm - \$6; 50gm - \$10; 100gm - \$19

- **Purple Plum** 25gm - \$10; 50gm - \$17; 100gm - \$34

White flesh with purple skin. Sweet and crisp. Attractive. -

- **Red Rambow** 25gm - \$6; 50gm - \$10; 100gm - \$19

Popular sprouting radish with burgundy leaves and stem. Mild spicy flavour. Sprout by using the jar rinsing method or sow in shallow soil all year round..

**RHUBARB - Victoria**

(*Rheum rhabarbarum*)

Produces broad stalks green-red colour, up to 60cm long. Vigorous upright grower. Sow Spring-Autumn.

5gm - \$12; 25gm - \$52

**ROSELLA**

(*Hibiscus sabdariffa*)

Annual bush to 2 metres. The sepals are used to make jams, jellies, drinks, chutneys and wine. Needs a long growing season. Sow Spring.

5gm - \$8;

**SHALLOTS**

(*Allium fistulosum*)

Perennial variety to 50 cm, straight leaf with a good sized base. Ideal for salads and cooking. Sow Autumn-Spring.

25gm - \$14; 50gm - \$28; 100gm - \$45

**SHALLOTS - Red Beard**

(*Allium fistulosum*)

Colourful plant to 70cm high producing red stalks up to 30cm. Adds colour to fresh foods and cooked dishes. Sow Autumn-Spring.

5gm - \$8; 25gm - \$20; 50gm - \$36

**SILVERBEET - Rainbow Chard**

(*Beta vulgaris*)

Attractive, nutritious vegetable, stems red, white & yellow. Use as for silverbeet. Sow Autumn - Spring.

25gm \$14; 50gm \$26; 100gm \$50

**SNOWPEA - Sprouting**

Grow your own sprouts. Easy to sprout in glass jar or soil method. Add sprouts to salads & stirfrys. Rinse daily.

250gm - \$4; 500gm - \$6; 1kg - \$10; 5kg - \$40

**SPINACH - English Bloomsdale** (*Spinacia oleracea*)

Rich source of vitamins and minerals, eat fresh or steamed. Sow Autumn - Spring. Produces broad dark green leaves, heavy yielding, good home garden & market garden variety. Withstands heat & cold **25gm \$11; 50gm \$24; 100gm \$42**

**SPINACH - Perpetual Gator** (*Beta vulgaris*)

Large oval, smooth green leaf. Suitable as a baby leaf & full leaf. Good bolting and heating tolerance. Excellent for salads and cooked. Sow Autumn-Spring. **25gm \$8; 50gm \$15; 100gm \$25**

**SUGARBEET** (*Beta vulgaris crassa*)

Hardy biennial produces a large storage root, high in sucrose. Excellent fodder crop. Sow Autumn - Spring. **25gm - \$17; 50gm - \$32**

**TATSOI** (*Brassica rapa rosularis*)

Compact plant to 30cm high, produces small, dark green, spoon shaped leaves in a whirl. Harvest in 30 days, mild flavour. Use in salads & lightly cooked. Sow Autumn - Spring. **25gm - \$8; 50gm - \$16; 100gm - \$30**

**TURNIP - Purple Top**

Fast growing root vegetable, ready to harvest in 60 days. Round, purple on top, white below. Best eaten fresh when young, sliced or grated in salad and cooked. Sow Autumn-Spring. **25gm - \$8; 50gm - \$12; 100gm - \$24**

**WATERMELON** (*Citrullus vulgaris*)

Grown in Spring - Summer. Plant in fertile well drained soil, water well, eat fresh or juiced.

- **Charleston Grey** **25gm - \$8; 50gm - \$15; 100gm - \$30**

Oblong fruit to 60cm long x 25cm wide. Thick gray-green rind with darker veins. Bright red, sweet flesh up to 15kg.

- **Jam** (*Citrullus lanatus*)

Fruit smooth, round, pale yellow flesh. Good bearers, makes good jam.

- **Sugarbaby** **25gm - \$7; 50gm - \$12; 100gm - \$22**

Small round fruit to 4kg, excellent bright red flesh, dark green skin. Tolerates cooler conditions.

► **WINTER MELON** (*Benincasa hispida*)

Annual vine grown for its edible long green fruit and thick white flesh. Used in asian dishes to make various soups, curry, stir fry's, candy, sweet dishes, tea. Provide adequate moisture, full sun. Sow in Spring - Summer.

**ZUCCHINI - Black Beauty** (*Cucurbita pepo*)

Early maturing, dark green cylindrical fruit, bush variety. **25gm - \$9; 50gm - \$16; 100gm - \$26**

**ZUCCHINI - Ronde de Nice** (*Cucurbita pepo*)

Compact bush variety producing small, round, light green fruit, delicious flavour. Use steamed or baked. Sow Spring - Summer.

**Herbs**

**ALL SEED PACKETS \$3.20ea. Members \$2.88ea**

**ALFALFA - Lucerne** (*Medicago sativa*)

Deep rooted perennial legume to 1metre high. Green manure, excellent mulch, forage crop. Seed used for sprouting. Sow Spring & Autumn in moist soil. 500g covers 300m<sup>2</sup>.

**250gm - \$7; 500gm - \$12; 1kg - \$21; 2kg - \$39.00**

**BASIL** (*Ocimum basilicum*)

Popular herb, used in salads and cooked foods fresh or dried. Sow Spring - Summer.

- **Dark Opal** (*Ocimum basilicum purpurea*)
